Corporate Governance Statement 2016

Introduction

Detection Technology Plc (the company) is a public limited company registered in Finland, and its head office is located in Espoo, Finland. Detection Technology Group (Detection Technology) comprises the parent company Detection Technology Plc, Finland, and its two subsidiaries in PR China, Hong Kong and the US.

As the company's shares are listed on Nasdaq OMX First North, the company strives to follow the CG Code in its operations even though this is not mandatory. CG code is based on comply-or-explain, which allows companies to deviate from individual recommendations if they can explain and justify the deviation.

The company deviates from CG code recommendation that both genders are to be represented on the Board of Directors (Recommendation 9 – Number, composition and competence of the directors), as this has not been necessary considering the requirements of the operation and the development stage of the company.

Decision-making and governance at Detection Technology Plc comply with the company's Articles of Association, the Finnish Companies Act and other applicable legislation. In addition, the company strives to comply with the recommendations of NASDAQ OMX Helsinki Ltd, as well as NASDAQ OMX Helsinki Ltd's Guidelines for Insiders. The foreign subsidiaries comply with local legislation.

The General Meeting of shareholders, Board of Directors and the President and CEO are in charge of the management of Detection Technology Group and their tasks are determined as specified by the Finnish Companies Act. The President and CEO is in charge of group-level operative activity, assisted by the group's Management Group.

Governing Bodies

General Meetings

The General Meeting is the highest decision-making body of the company. The Annual General Meeting is arranged once a year on a date determined by the Board of Directors within six months of the end of the financial period. Extraordinary general meetings can be arranged during the year, if necessary. In accordance with the Articles of Association, the General Meeting is held in the company's registered offices either in Espoo or Oulu.

According to the Finnish Companies Act, the Annual General Meeting's tasks include decisions regarding:

- changes to the Articles of Association
- adoption of the financial statement
- profit distribution
- number of the Board members, their election and fees
- election of company auditor

All resolutions and documents related to the Annual General Meeting are published as a company release and on the company's website.

Board of Directors

The Board is responsible for the company's management and the appropriate arrangement of its operations. The Board of Directors is responsible for duties specified in the Articles of Association and the Finnish Companies Act. The main duty of the Board of Directors is to approve the company's strategy, decide on financial arrangements and make decisions on the purchase and sale of significant assets. The Board of Directors follows the company's financial development through monthly reports and other information that company management provides to the Board.

The essential duties and responsibilities of the Board are defined primarily by the Articles of Association and the Finnish Companies Act. The Board annually ratifies a working order that specifies the meeting procedure of the Board of Directors and its tasks.

The key tasks of the Board of Directors include:

- Approving consolidated financial statements and interim reports
- Proposals to the Annual General Meeting
- Appointing and dismissing the President and CEO
- Organization of financial control.

In addition, the Board decides on matters of principle, as well as items that carry financial and business significance, such as:

- Group and business unit strategies
- Group action, budget and investment plans
- Group risk management and reporting procedures
- Decisions concerning the structure and organization of the Group
- Significant individual investments, acquisitions, divestments and reorganizations
- Group insurance and financing policies
- Reward and incentive scheme for Group management
- Appointing Board committees
- Monitoring and evaluating the actions of the President and CEO.

Detection Technology's President and CEO is in charge of ensuring that the Board members have necessary and sufficient information on the company's operations.

In accordance with the Articles of Association, the Board of Directors consists of a minimum of three and a maximum of six regular members. The Board members are elected by the Annual General Meeting for one term of office at a time. The term of office begins at the end of the General Meeting that elected the Board and expires at the end of the first Annual General Meeting of shareholders following the election. The Articles of Association place no restrictions on the power of the General Meeting to elect members to the Board of Directors. The Board of Directors elects the Chairman from its members, and the Board of Directors is deemed to have a quorum present when at least half of its members are present. In addition to matters to be resolved, the Board of Directors is given real-time information on the operation, financial standing and risks of the Group at their meetings.

The company's AGM of 10 March 2016 decided on the composition of the Board of Directors as follows:

Name	Year of birth	Education	Role	Independent of major shareholders	Independent of the company
Tallberg Andreas	1963	M.Sc.(Econ.)	Chairman		•
Allonen Heikki	1954	M.Sc. (Eng.)	Member	•	•
Niemi Petri	1961	M.Sc. (Eng.)	Member	•	•
Roos Henrik	1958	M.Sc. (Eng.)	Member	•	•
Saarenmaa Ari	1964	M.Sc. (Eng.)	Member		•

The Board of Directors convenes at reasonable intervals during the year according to an agreed schedule, in addition to which it convenes when necessary. Minutes are kept for all meetings.

The Board met 13 times in 2016, and the participation rate was 97%.

Andreas Tallberg has acted as Chairman of the company's Board of Directors since 2007. Andreas Tallberg has been the CEO of Oy G.W. Sohlberg Ab since 2007 and also CEO and/or member of the Board of Directors of several GWS group companies. He has previously acted as a Senior Partner at EQT Partners (1997-2006), in management positions at MacAndrews & Forbes group companies (1991-1995), as Director of Business Development at Nokia Consumer Electronics (1990-1991), and in management positions at Amer Yhtymä Oyj (1986-1990). 2016. In addition to this, Andreas Tallberg owns 17,362 shares through a corporation controlled by him, Oy Nissala Ab.

Management

President and CEO

The Board of Directors appoints the President and CEO. The President and CEO is in charge of the management of the company's business operations and governance in accordance with the Articles of Association, the Finnish Companies Act and the instructions given by the Board. The President and CEO is assisted in the management of the Group by the Management Group.

Hannu Martola has acted as President and CEO of the company since 2007.

The Board of Directors decides on the service terms and conditions of the President and CEO, specified in writing. The President and CEO is subject to six months' notice and is entitled to salary for the period of notice should the company give notice, in addition to which he is entitled to severance pay equivalent to 12 months' fixed salary.

The President and CEO has an additional personal pension insurance policy paid by the company, and retirement age has been agreed at 62.

Management Group

The President and CEO proposes and Detection Technology's Board of Directors approves the nomination and compensation of the Management Group members. The Management Group assists the President and CEO in the operative management of the company, prepares matters handled by the Board and the President and CEO, and plans and monitors the operations of the business units. The Management Group convenes on a monthly basis and when necessary. The President and CEO acts as Chairman of the Management Group.

Members of the Management Group have been Hannu Martola (President and CEO), Petri Hiljanen (CFO), Kari Hyvärinen (VP, Security and Industrial Business Unit), Han Ming (HR Director), Jyrki Still (CTO), Kai Utela (VP, Operations) and Chen Wu (VP, Medical Business Unit). Timo Lämsilähti (Sourcing Director) was a member of the Management Group until 16 April 2016, when he resigned from his duties.

Shareholdings of the Management Group

According to the share register maintained by Euroclear Finland Ltd, President and CEO Hannu Martola directly held 226,060 shares in Detection Technology Plc on 31 December 2016 and through a corporation controlled by him, Expedir Oy, 35,000 shares in the company. Other members of the Management Group directly held in total 150,837 shares.

Remuneration

Board of Directors

The General Meeting decides on the remuneration paid to the Board of Directors. On 10 March 2016, the Annual General Meeting decided to compensate the members of the Board as follows:

Performance-based incentives paid in cash	155,865
Share-based incentive scheme	2,970,623
Total	3,834,306

Risk management and internal controls

Internal control

The Board's responsibility is to organize the internal control in the company. The aim of the internal control is to ensure the effectiveness and profitability of the actions, the reliability of information and compliance with rules and regulations. Internal control is part of the daily management of the company.

The control system is based on group-level policies, guidelines and processes, and the control of business operations and support processes. An operating culture is being built by the steering and control of the company's operations by the Board of Directors, the management methods of the company's management, the company's organizational structure and management system, the effective utilization of the global information system and employee competence.

The company has arranged internal control using an external auditor. The Audit Committee oversees the activities within internal control. In practice, internal control is done by the Financial Department under the supervision of the CFO. The goal is to make sure that the whole Group has similar financial control, administration and accountancy policies.

Risk management

The Board has confirmed the risk management principles for Detection Technology. The company's risk management supports the achievement of strategic goals and ensures the continuity of business operations.

The goal of risk management policies is to identify and evaluate risks and plan for risk mitigation. Such actions may include avoiding risks, mitigating risks by different means or transferring risk by insurance or agreements. When necessary, the Board of Directors is informed about all material changes and new significant risks that are identified.

Risk assessment in financial reporting

The Financial Department operating under the CFO is responsible for the general control of financial reporting. The Group follows Finnish Accounting Standards (FAS). Financial reporting is based on the information gathered from business and administrative operations and data provided by information systems. The Financial Department determines the necessary control activities for financial reporting processes, which include various rules, process descriptions, reconciliations and analyses, which are done to ensure the validity of reported information.

Auditors

Detection Technology Plc has one auditor that must be a company accredited by the Central Chamber of Commerce (Authorized Public Accountants). The auditor is elected until the next Annual General Meeting. The primary function of auditing is to verify that the financial statements give true and fair information about Detection Technology Plc's result and financial position for the financial period. In addition, the auditor reports to the Board of Directors on the ongoing auditing of administration and operations.

In 2016, Detection Technology's auditor was Ernst&Young Ltd, Authorized Public Accountants, with Juha Hilmola, APA as the auditor in charge.

Insider administration

Detection Technology manages inside information and insiders in accordance with the requirements of the Market Abuse Regulation (MAR), the Insider Guidelines of Nasdaq Helsinki, and its internal insider guidelines.

The insider and trading guidelines approved by the Company include regulations on insiders, the publication and postponement of publication of insider information, the prohibited use of insider information, insider registers, duty of notification of transactions by managers and their closely associated persons, and the trading of personnel in specific financial instruments.

The managers of the company must comply with the EU Market Abuse Regulation's prohibition on dealing in company financial instruments (closed period). Managers at Detection Technology are members of the company's Board of Directors, the company's President and CEO, and the company's Management

Group members. In accordance with a decision by the company's Board of Directors, the company has also determined certain time periods during which persons taking part in the preparations of the company's financial reporting and other persons who have access to information pertaining to its financial status are prohibited from trading in the company's financial instruments. Trading in such financial instruments is completely prohibited for the aforementioned persons for a period of 30 days before the publication of the company's earnings information and on the release date. The trading restriction ends on the next business day after the publication.

Persons included in a project-specific insider register are prohibited from all trading and business transactions until the project has expired or has been publicly announced. If the project falls on another listed company or may affect the price of the financial instruments of another listed company, the project-specific insiders have no right to trade in such a company's financial instruments.

The company voluntarily maintains on its website a list of the financial instruments owned by its managers or their controlled corporations.

Disclosure policy

Investor communication in Detection Technology aims to continuously provide correct, adequate and up-to-date information fairly to all market participants. The company's President and CEO and CFO are the main parties dealing with and answering questions from analysts and investors.

Releases and publications are available on the company website (www.deetee.com) immediately after their publication. The information is published in Finnish and English.

The Group's representatives do not comment on the Group's financial situation nor meet with any capital market representatives for a period of 30 days prior to the publication of financial statements and interim reports. Investor calendar and silent periods can be found on the company's website.

Detection Technology's first CG Statement as required by Recommendation 54 of the Finnish CG Code was published in early 2016 in connection with the annual report. The statement is updated annually. The updated CG statements can be found on the company's website: <http://www.deetee.com/investors/corporate-governance/>
